

Parish Verification Form Follow-up for Weekly School E-Newsletter

Enrollment for 2022-23 is off to a very brisk pace, and we are pleased many of you have re-enrolled. We have already created waitlists for a few grades at some of our schools.

As reviewed in my January letter to you, new to the enrollment process for students in grades K through 10 this year is the Parish Verification Form.

This new process supports the meaningful relationship between our families and our GRACE parishes in harmony with our mission of growing in our Catholic faith. This process also recognizes our GRACE parishes who significantly support our schools through their financial investments.

- Families enroll K-10 students with the Standard Rate of tuition in our TADS.com enrollment management system.
- After enrollment, families are to complete - with their GRACE parish - the Parish Verification Form. Upon receipt of verification, the family's TADS Billing Account will be adjusted to the Active Parishioner Rate (lower rate).
- Your parish office will help guide you through the process of obtaining their verification. Our parishes define what 'active parishioner' means in each parish.
- The Parish Verification Form and instructions are provided during the online enrollment process in TADS. Information is also available at gracesystem.org | [Admissions](#) | [Parish Verification Form](#).
- Please submit your completed Form which includes verification by your parish representative to GRACE Riverside Office by June 1, 2022. Tuition payments for 2022-23 begin in July annually. Submission instructions are on the Form.
- Completed verification forms will be processed in batches at regular intervals. Each family will receive an email when their Form is processed and their TADS Billing Account is adjusted.

Please be sure you enroll your K-10 students fully and then complete the Parish Verification Form with your parish.

If you have not already re-enrolled, we encourage you to do so to ensure your child's seat for fall 2022 and to take advantage of the lower enrollment fee (now \$100 until March 1st). Early re-enrollment also allows us to plan resources including staffing for next school year; preparations are already underway!

God bless!
